Re: Thank You

Dear Tim:

I want to thank Sullivan Roofing for the great job you did on Pinstripes. You guys did a terrific job!

Gianni Pellegrinon did a great job as project manager keeping up with the changes and paperwork. Mike Sullivan and Maurico Castro and all your field crew did terrific working with our schedule and working safely. I also really appreciate your accounting department always turning in invoicing on time and in the correct format.

We could not have accomplished what we did on this job without terrific subcontractors like Sullivan on our team. It was a pleasure working with you and I hope we do many more successful projects together in the future!

Yours truly,

FCL BUILDERS IV, LLC
