Re: Audi Exchange – Highland Park
Roofing and Metal Wall Panel Installations

Dear Keith:

I want to thank you and the rest of the Sullivan Roofing, Inc. team for your performance on the Audi Exchange project in Highland Park. This was a very challenging project for your scope of work which included roofing, air and water barrier, ACM panels and honeycomb metal panels. You performed work on 5 different buildings; 4 of which were existing structures with existing conditions to manage. All the while, work was completed safely on a ¼ mile long campus around constant owner operations.

Sullivan's work was performed professionally and with the utmost attention to detail while working under a tight schedule. Audi's corporate Architect, the Architect of Record, and the Owner all commented on the quality of the workmanship.

Thank you again and I look forward to many more successful projects with Sullivan in the future!

Sincerely,

A handwritten signature in black ink, appearing to read "Scott Leadbetter".
